

How to Begin

Potential Clients who would like to learn more about our services are welcome to call with questions or they can set up a free 30-minute consultation. During the consultation you can discuss concerns about your child, options for assessment, and our tutoring programs.

"CLC is the only learning center of its kind in our area, and we are so glad they are here."

-Lucy Bordona

"After Fast ForWord my child's reading levels have greatly improved. He finally understands what he is reading! Due to his auditory delays and processing problems he wasn't hearing sounds. Now his sound awareness has increased. He now asks for clarifications and his confidence is growing. My son actually asked that I share information about this program with his school so other kids like him could get help. Thank you California Learning Connection for accurately assessing my child and providing him with just the right program tailored to his developmental needs."

-Teri (parent)

How We Can Help

California Learning Connection is a group of Speech Pathologists, occupational therapists, and educators specializing in children that have learning challenges or who need extra support to succeed. CLC's approach is creative and dynamic while blending elements that accelerate intellectual growth and stimulate learning.

Our Difference

We offer a wide range of academic services to best fit your needs. These services span various subjects, degrees of individualization, and frequency of service. Our most flexible option is our Homework Help program which functions like a supportive study hall. Alternatively our individualized Math and Reading programs are tailored to accelerate student's learning or support students with special needs. We offer a natural and fun setting to stimulate learning. In addition we specialize in children who have learning challenges including reading, speech and language, difficulty with social integration, delays in the development of motor skills and sensory integration problems.

Our Services

The learning academy specializes in:

- Study Skills and Positive Study Habits
- Home Schooling, Independent Study, and Course Catch-up
- Speech and Language Disorders and Delays
- Autism and Other Brain Disorders or Injuries
- Reading and Learning Disabilities
- Learning Delays
- ADHD or ADD
- Dyslexia

Our Programs

The Learning Academy's tutors are trained and supervised in programs that help learners of all ages acquire academic skills necessary for success. These internationally recognized programs produce consistent proven results.
