

*Integrating minds and bodies
to improve skills throughout life.*

ENHANCE LEARNING

GET AHEAD

Whether your child is falling behind or just needs an extra boost, now is the time to target underlying difficulties that can make your child's school year so challenging. The Fast ForWord program, created by Scientific Learning, can break the cycle of frustration with learning and reading. Fast ForWord can help your child reach new heights with proven results within 4 - 6 weeks!

How Does Fast ForWord Work?

At-Home or In-Office computer time - the more time each day, the better the results. Receive weekly reports on progress and development

Cognitive Brain Training exercises - using age appropriate language content ranging from early elementary all the way through high school level

Critical reading and language skill development - spelling, syntax, grammar, vocal, critical thinking, and much more

After using Fast ForWord **elementary students** get to grade level for year to year promotions. **Middle school students** meet the rigorous demands of higher reading requirements. **High school students** increase their scores on SAT or ACT tests.

Email Megan at mferreira@clconnect.com for more information on Fast ForWord, including pricing.
